What about the fumes, Bob?

As one of our customers says, "we felt all alone after the cleanup crew left leaving strong smell in the house". You are not alone. VaporRemed® is your friend indeed.

VaporRemed® eliminates heating oil fumes almost instantly, permanently and in environmentally safe manner. In the unlikely event of an oil spill in your home or your customer's homes, insist on using only the best. Use VaporRemed® for all your post-spill cleanup needs.

Advantages of VaporRemed

VaporRemed	Conventional Methods
Fuel oil fumes gone in minutes	Requires minimum blowing air for 12 – 16 weeks
Minimum disturbance to the environment	Causes major disturbance to environment
Simple to use. Available in a Ready To Use form.	Requires qualified operators for excavators, trucks etc.
No waste for disposal	Expensive waste disposal
No transport required for disposal	Trucks with hazmat permits required
Minimum health risk	Major construction activity requiring emphasis on H & S
Minimum capital outlay	Major outlay on excavators, trucks etc.

VaporRemed®

Fuel Oil Fumes Gone in Minutes

Success Stories

1: A spill in a basement in Ohio

Excavated pit sprayed with VaporRemed® removed fumes in minutes.

New furnace installed in less than three weeks after treatment with VaporRemed®

VaporRemed®

Cleanup contaminations of past for a kinder, gentler tomorrow

2: Mitigation of fumes

After an oil spill in a Virginia residence, fuel oil was trapped in the cinder block wall and the fumes migrated to the living room. VA DEQ approved treatment with

VaporRemed® and after first injection, the fumes were eliminated permanently.

3: Indoor Air quality after VaporRemed spray

Another residence in Virginia, had persisting fumes in the basement and the first floor from an earlier spill. Even after the clean up and sealing the basement, fumes remained. In less than two months, all gaseous hydrocarbon constituents were reduced below the limits of detection by VaporRemed®. (See figure below).

VaporRemed®

Customer Quotes

"I have been working for Leffler Energy for about 24 years now and have tried many products that promised to remove, cover up or eliminate oil odor. Your Product Vapor Remed is the first one to live up to the promise in every way. The day after using your product home owner called and said she noticed an immediate improvement. I am so convinced that your product is the only thing to use that I will be spreading the word."

Tim Jackson, Leffler Energy, PA

"We had a spill in the church building 15 days before Christmas. Spill was mopped up but the fumes remained.

We sprayed VaporRemed and before the end of the day the fumes were gone."

Mike Gaiser, Southern Maryland Oil, MD

"Thank you for your immediate response in sending the VaporRemed. We had an open fuel oil tank (the pipes were removed) and strong oil fumes inside our home. **Our dog and cat** became ill within a few hours. Upon receiving and spraying the VaporRemed, the fumes quickly disappeared and the animals recovered. ... thanks for creating such an amazing product!

Denise, Maryland (Home owner)
