Our Utility Savings Program is a no cost capital improvement program that starts generating positive revenue from day one and allows for the installation of ADG Eco Friendly energy efficient lighting products into school districts, colleges, government buildings, established municipalities and hospitals with no out of pocket costs. This is possible because the expense for the capital improvement is paid out of the savings in energy cost monthly, as a secondary utility expense, at a fixed rate for a set period of time with future savings of 100%

- **Zero Capital Expenditure Up Front**
- **Lights/Fixtures are Paid for by the Savings**
- **Thousands of Successful Installations**
- **20-25% of the Savings Are Kept by the End-User**
- **The Balance Of The Savings Goes To ADG For A Period Of 72-84 Months**
- **100% Of The System Savings Reverts To The End User After Repayment Term**
- **Fixtures Manufactured In The USA**
- **Replacement Lights Maintained During The Payback Period**
- **Lighting will have a 100,000 Hour Warranty**
- **Savings Will Include:**
 - **Electrical Usage**
 - **Peak Demand Reductions**
 - **Current Lighting Replacement**
 - **Maintenance Of Current System**
